

Field Engineer

Concrete Placing Co., Inc. seeks Field Engineer to assist Project personnel with construction of local and regional heavy civil projects. Travel required. Individual must like to work outside and be a leader and problem solver.

Job Description:

This individual will be working on a project and working directly with the project personnel. Your duties would include analyzing construction drawings and specifications, handling change orders, data input of equipment and labor time, monitor project budgets, quantitative analysis of completed work, schedule material and sub-contractors and many other paperwork items. The ideal candidate will have either a bachelor degree or associates degree in the construction field and possess the following characteristics:

- Be well organized
- Excellent verbal and communication skills
- Understand CPM scheduling

The above description covers the principal duties and responsibilities of the job. The description shall not, however, be construed as a complete listing of all miscellaneous, incidental or similar duties which may be required from day to day. This position has potential for advancement.

Concrete Placing Co., Inc. compensation and benefits package is designed to provide a complete package that rewards hardworking, dedicated and reliable employees.

We provide:

- Highly competitive wages
- Company paid health insurance
- Pension and profit sharing
- Performance based bonuses
- Paid vacation
- Personal education reimbursement.
- Industry training to improve skills and provide advancement opportunities

Wage DOE
